

KURSPLAN

Working Process and Writing in Research, 7,5 högskolepoäng

Working Process and Writing in Research, 7.5 credits

Kurskod:	FLWPW30	Utbildningsnivå:	Forskarnivå
Fastställd av:	Ordförande för Forskningsnämnden 2017-04-27		
Reviderad av:	Forskningschef HLK 2022-11-23		
Gäller fr.o.m.:	Våren 2022		
Version:	2		

Lärandemål

The student shall meet the following learning outcomes, which cover knowledge and understanding, skills and abilities as well as judgement and approach.

Kunskap och förståelse

On completion of the course, the student should be able to:

- describe important steps in the process of writing scientific texts
- describe fundamental text theories
- identify salient characteristics of scientific text genres
- adequately use writing handbooks when needed.

Färdighet och förmåga

On completion of the course, the student should:

- demonstrate good ability to write scientific texts characterised by a style that is appropriate to the genre, good audience awareness and correct language usage
- demonstrate the ability to analyse scientific texts and adapt them according to purpose, audience, genre and medium.

Värderingsförmåga och förhållningssätt

On completion of the course, the student should be able to:

- critically review and evaluate the validity and credibility of scientific texts as well as the functionality of such texts in view of purpose, audience, genre and medium.

Innehåll

- Scientific writing as a working process
- Text theories and their arguments
- Adherence to genre conventions, with emphasis on informative, discursive and argumentative texts
- Audience adaptation
- Linguistic correctness at different textual levels
- Use of handbooks

Undervisningsformer

The teaching consists of lectures, seminars and exercises performed individually and in groups.

Undervisningen bedrivs på engelska.

Förkunskapskrav

The applicant shall meet the general entry requirements for third-cycle courses and programmes.

Examination och betyg

Kursen bedöms med betygen Underkänd eller Godkänd.

Further information concerning assessment of specific intended learning outcomes and grading criteria is provided in a study guide distributed at the beginning of the course.

The course is examined through individual written assignments, an individual presentation and active participation in seminars.

Kursvärdering

The instruction is followed up throughout the course, and a course evaluation is performed at the end of the course. The course coordinator collates and comments on the evaluation before submitting it to the Associate Dean of Doctoral Programmes at the School of Education and Communication. The evaluation is to function as a basis for future improvements to the course.

Övrigt

See separate attachment for a detailed schedule and information about the application procedure.
