

KURSPLAN

The Ecology of Inclusion, Participation and Children's Everyday Functioning, 7,5 högskolepoäng

The Ecology of Inclusion, Participation and Children's Everyday Functioning, 7.5 credits

Kurskod:	LEPS20	Utbildningsnivå:	Avancerad nivå
Fastställd av:	Utbildningschef 2019-12-17	Utbildningsområde:	Undervisningsområdet (50%) och vård (50%)
Gäller fr.o.m.:	Våren 2020	Ämnesgrupp:	BU2
Version:	1	Fördjupning:	A1F
		Huvudområde:	Studier om barn och ungdom

Lärandemål

On completion of the course, the student should be able to:

Kunskap och förståelse

- explain inclusion and participation in education, health and social services related to theoretical perspectives in an international context
- describe and show a deep understanding regarding functioning in everyday life for children/youth with disability, longterm health conditions or at risk and in need of special support from a holistic, inclusive and interactive perspective
- demonstrate a deep understanding of the components of intervention processes, assessment and evaluation

Färdighet och förmåga

- create an intervention plan with a focus on participation and a long-term goal of autonomy of the child/youth and the family
- identify factors that facilitate participation and inclusion in everyday life for children and youth with disability, longterm health conditions or at risk
- use collaborative problem solving involving the child/youth, family and professionals

Värderingsförmåga och förhållningssätt

- problematize and interpret conceptions of participation and inclusion in intervention processes in different contexts based on theoretical frameworks
- critically reflect on professionals' role and skills working with an inclusive approach in involving the child/youth and family in the intervention process
- problematize ethical issues in the intervention process

Innehåll

- Perspectives on inclusion in relation to children with disability, longterm health conditions or at risk

- Inclusion and participation in the health, social and educational sector
- The use of systems theory and ICF-CY in intervention processes
- Barriers and facilitators for inclusion and participation of children/youth in need of special support
- Collaborative problem-solving involving the child/youth family and professionals in the intervention process
- Ethical consideration in intervention processes

Undervisningsformer

The teaching consists of lectures, seminars and exercises performed individually or in groups. A digital learning platform is used.

The students are encouraged to suggest literature from their own country or from parts of the world not provided in the literature list.

Students who have been admitted to and registered on a course have the right to receive instruction/supervision for the duration of the time period specified for the particular course to which they were accepted. After that, the right to receive instruction/supervision expires.

Undervisningen bedrivs på engelska.

Förkunskapskrav

The applicant must hold the minimum of a bachelor's degree (i.e. the equivalent of 180 ECTS credits at an accredited university) within health and care sciences, behavioral science, socialwork, or educational sciences, including independent, theoretical based work, i.e. a thesis or the equivalent. Also 45 credits at advanced level within the subjects of the bachelor's degree including independent, theoretical based work, i.e. a thesis or the equivalent.

Examination och betyg

Kursen bedöms med betygen A, B, C, D, E, FX eller F.

The grades A, B, C, D and E are all passing grades. For courses with more than one element of examination, students are given a final grade based on an overall assessment of all the elements included in the course. The final grade of the course is issued only when all elements of examination have been passed.

The examination is based on instruction, seminars and course literature.

The course is examined through:

- Seminar
- Oral presentation
- One written assignment

The examination must allow for students to be assessed on an individual basis. Further information concerning assessment of specific intended learning outcomes and grading criteria is provided in a study guide distributed at the beginning of the course.

To receive the final grade of A the student must receive pass for the seminar and oral

presentation and A for the individual assignments. Students are guaranteed a minimum of three attempts to pass an examination, including the regular attempt.

If a student has failed the same examination three times, the student is entitled to request that the next examination be assessed and graded by a new examiner. The decision to accept or reject such a request is made by the vice dean of education. A student may not make a second attempt at any examination already passed in order to receive a higher grade.

In case a course is terminated or significantly altered, examination according to the earlier syllabus shall be offered on at least two occasions in the course of one year after the termination/alteration.

Poängregistrering av examinationen för kursen sker enligt följande system:

Examinationsmoment	Omfattning	Betyg
Literature seminar [†]	1,5 hp	U/G
Oral presentation [†]	2 hp	U/G
Individual written assignment	4 hp	A/B/C/D/E/FX/F

[†] The examination is graded Fail (U) or Pass (G)

Kursvärdering

The instruction is followed up throughout the course. At the end of the course, a course evaluation is performed and commented on by the course coordinator and, if possible, a student representative/student representatives (course developer/s). The evaluation, which is published on the relevant e-learning platform and submitted to the administration, is to function as a basis for future improvements to the course.
