

KURSPLAN

Konsumentbeteende i online-sammanhang, 7,5 högskolepoäng

Consumer Behaviour in Online Contexts, 7.5 credits

Kurskod:	TKTS22	Utbildningsnivå:	Avancerad nivå
Fastställd av:	VD 2021-10-01	Utbildningsområde:	Tekniska området
Reviderad av:	Utbildningschef 2021-11-19	Ämnesgrupp:	IF1
Gäller fr.o.m.:	2022-01-01	Fördjupning:	A1F
Version:	3	Huvudområde:	Informatik

Lärandemål

After a successful course, the student shall:

Kunskap och förståelse

- display knowledge of the various consumer behavior concepts, theories, and principles (e.g., determinants of behaviour, technology acceptance and usage) and their use in the development and improvement of digital products
- demonstrate comprehension of the use of the various consumer behaviour concepts, theories, and principles (e.g., determinants of behaviour, technology acceptance and usage) in the online context

Färdighet och förmåga

- demonstrate the ability to use the consumer behavior concepts, theories, and principles to clarify how consumers use digital products
- demonstrate the ability to contrast the use of these principles in a range of digital products

Värderingsförmåga och förhållningssätt

- demonstrate the ability to critically reflect on consumer behavior concepts, theories, and principles in digital products and their use by consumers
- demonstrate the ability to advise organisations and digital developers regarding the suitability of digital products to satisfy the needs of consumers

Innehåll

Consumers as users are critically important to the success of digital products such as websites, applications (apps) and video games. This course seeks to provide the student with the necessary understanding of how consumers behave in online contexts and their interaction with digital products. The focus in this course includes the models, theories, and principles that can be used to understand the reactions of consumers to digital products to improve the user experience.

The course includes the following elements:

- The nature and importance of consumers in the success of digital products

- Business and final consumers and their use of digital products
- Individual and group determinants of consumer behavior in an online context
- Gamers as consumers of digital products
- The online customer journey, decision-making, and transaction abandonment
- The relevant consumer behavior models, theories, and concepts that explain the success of digital products including models such as Acceptance Models (e.g., UTAT2, TAM) and Technology Readiness Index (TRI)

Undervisningsformer

The teaching includes both lectures and seminars. Students are expected to take responsibility to master the course literature and complete the assignments.

Undervisningen bedrivs på engelska.

Förkunskapskrav

Passed courses at least 90 credits within the major subject in Informatics, Computer Science, Computer Engineering or equivalent, and completed course Digital Product Development, 7,5 credits, or equivalent. Proof of English proficiency is required.

Examination och betyg

Kursen bedöms med betygen 5, 4, 3 eller Underkänd .

All assignments are individual unless otherwise specified by the course manager. No collaboration allowed. The final grade for the course is based upon a balanced set of assessments. The final grade will only be issued after satisfactory completion of all assessments.

Poängregistrering av examinationen för kursen sker enligt följande system:

Examinationsmoment	Omfattning	Betyg
Individuell inlämningsuppgift	2,5 hp	5/4/3/U
Individuell reflektionsdagbok	1 hp	U/G
Individuell tentamen	4 hp	5/4/3/U

Kurslitteratur

The literature list for the course will be provided 8 weeks before the course starts.

Scientific articles will be handed out during the course.
