

COURSE SYLLABUS **Macroeconomics I, 7.5 credits**

Macroeconomics I, 7,5 högskolepoäng

Course Code: FJME138	Education Cycle: Third-cycle level
Confirmed by: Research Board Sep 1, 2017	
Valid From: Autumn 2018	
Version: 1	

Purpose

The goal of the course is to develop the student's knowledge and skills in working with and understanding advanced theoretical models that depict macroeconomic processes and economic growth and to distinguish between alternative modeling approaches

Intended Learning Outcomes (ILO)

On completion of the course, the students will be able to:

- Knowledge and understanding
- Skills and abilities
- Judgement and approach

Knowledge and understanding

- Demonstrate broad knowledge and deep understanding of how well theoretical models are able to depict macroeconomic processes and distinguish between alternative ways of analyzing economic growth

Skills and abilities

- Demonstrate the capacity for independent and creative scholarly analysis of neoclassical, Keynesian, New Keynesian, or endogenous economic growth models and the skills to apply such models to empirical problems using real data within a predetermined time frame.
- Demonstrate broad knowledge and systematic understanding of complex macroeconomic policy issues and relate arguments to well understood theoretical principles

Judgement and approach

- Demonstrate intellectual autonomy and integrity in the discussion of a specific topic in the area of advanced macroeconomics

Contents

- The course covers various theoretical macroeconomic models that deal with macroeconomic processes, economic fluctuations and economic growth. The course presents neoclassical models of economic growth and more recent models of endogenous economic growth. It also presents a models of real business cycles, and Keynesian and New Keynesian economic models.

Type of instruction

- Lectures and assignment

The teaching is conducted in English.

Prerequisites

Admitted to a doctoral programme in economics or a related subject of a recognized business school or university.

Examination and grades

The course is graded Fail (U) or Pass (G).

Course assessment consists of two elements

- Written Exam deals with ILOs 1 and 3
- Written Assignment deals with ILOs 1, 2 and 4

Each of these two elements must be passed to obtain a pass in the course.

The grades given are pass or fail.

Course evaluation

A course evaluation will be conducted at the end of the course.

Course literature

The listed literature combined with lecture notes and additional articles, which are distributed for each lecture occasion and which can also be retrieved electronically.

Barro, R. J., and X. Sala-i-Martin. *Economic Growth*, 1995, chapters 6 and 7.

Romer, David (2001). *Advanced Macroeconomics*: The McGraw-Hill Companies, Inc.

Additional articles will be assigned.
