The course provides frameworks to create and stimulate transformation and/or digitalization in private enterprises and not-for-profit organizations. The course pays attention to the challenges of change management when coupled with innovation. The content reflects the following aspects including:

- Approaches and tools for the design and management of change & innovation
- Perspectives on change management
- The leadership of change and transformation
- Perspectives on resistance to change

- Perspectives on innovation including social innovation
- Learning the Studio Method to design breakthrough business models technologies, and products
- Managing new forms of innovation
- Capturing value from innovations
- Change and innovation case analysis

Type of instruction

Lectures, seminars, guest lectures, group projects, discussion, and presentations at JIBS Business Studio.

The teaching is conducted in English.

Prerequisites

General entry requirement and 30 credits in Business Administration or equivalent.

Examination and grades

The course is graded A, B, C, D, E, FX or F.

The intended learning outcomes are examined through a number of assessments including case analysis, group project and individual written examination.

Assessment:

The ILOs listed above are assessed through the following types of examination:

Change and Innovation Case Studies. 20% Value 1,5 credits. ILO's 3,4, 5 & 8.

Group Project. 20% Value 1,5 credits. ILO's 5-8

Course Participation. 10% Value 0,75 credits. ILO's 6,7, & 8.

Individual Written Exam. 50% Value 3,75 credits. ILO's 1,2, & 6.

Registration of examination:

Name of the Test	Value	Grading
Examination ¹	7.5 credits	A/B/C/D/E/FX/F

¹ Determines the final grade of the course, which is issued only when all course units have been passed.

Course evaluation

It is the responsibility of the examiner to ensure that each course is evaluated. At the outset of the course, evaluators must be identified (elected) among the students. The course evaluation is carried out continuously as well as at the end of the course. On the completion of the course the course evaluators and course examiner discuss the course evaluation and possible improvements. A summary report is created and archived. The reports are followed up by program directors and discussed in program groups and with relevant others (depending on issue e.g. Associate Dean of Education, Associate Dean of faculty, Director of PhD Candidates, Dean and Director of Studies). The next time the course runs, students should be informed of any measures taken to improve the course based on the previous course evaluation.

Other information**Academic integrity**

JIBS students are expected to maintain a strong academic integrity. This implies to behave within the boundaries of academic rules and expectations relating to all types of teaching and examination.

Copying someone else's work is a particularly serious offence and can lead to disciplinary action. When you copy someone else's work, you are plagiarizing. You must not copy sections of work (such as paragraphs, diagrams, tables and words) from any other person, including another student or any other author. Cutting and pasting is a clear example of plagiarism. There is a workshop and online resources to assist you in not plagiarizing called the Interactive Anti-Plagiarism Guide. Other forms of breaking academic integrity include (but are not limited to) adding your name to a project you did not work on (or allowing someone to add their name), cheating on an examination, helping other students to cheat and submitting other students work as your own, and using non-allowed electronic equipment during an examination. All of these make you liable to disciplinary action.
