Version:

Education Cycle: Second-cycle level Disciplinary Social sciences

domain:

Subject group: FE1 Specialised in: A1N

Main field of study: Business Administration

Intended Learning Outcomes (ILO)

Do you have any questions? Contact: internships@ju.se

On completion of the course, the students will be able to:

Knowledge and understanding

I. Account for, reflect on, explain, and potentially solve company challenges.

Skills and abilities

- 2. Thoroughly investigate a predefined topic by means of active organization participation.
- 3. Independently write a report, which derives useful conslusions for practice.
- 4. Learn how to communicate complex information effectively and tailor their writing to a practitioner-oriented audience
- 5. Prioritize tasks, set deadlines, and create a timeline for completing the report
- 6. Create a professional document that reflects student's knowledge and skills in the business field

Judgement and approach

7. Identify, analyze and critically discuss practical implications associated with the internship with the aim to contribute in terms of knowledge to the host company

Contents

The aim of the internship course is to facilitate increased in-depth learning within a predefined field of business administration. The internship position should offer an exclusive opportunity to study a topic in business administration. The aim of this course is to provide students with the possibility to analyze your internship environment and generate new knowledge and insights from it.

Students must be enrolled in the internship course before they can start an internship. Before a student can be enrolled in the internship course, the internship position and the topic of study must be approved by the course examiner.

Type of instruction

To fulfill the academic requirements of the internship, each student should submit the following reports:

Field note reflections: During the time of the internship each student should take field notes about specific things they observe or experience related to business administration (not limited to your chosen area and topic of internship study). Drawing on these field notes students should reflect on how practice mirrors what they have studied in previous courses. Students should submit four such reflections to their internship teacher during the internship.

Business report: During and related to the internship, each student should write a report with the aim of providing actionable insights and recommendations to decision-makers in the host company. To facilitate a relevant frame of reference and thorough analyses, the report should be supported by academic literature (at least 10 academic sources). Academic sources are academic journal articles (ranked ABS2, ABS3, ABS4, ABS4*) as well as books published by established publishing houses (Springer, Elsevier, Wiley, Taylor & Francis, Cambridge University Press, Oxford University Press, Palgrave Macillan, Routledge, Sage Publications, Emerald Group Publishing IGI Global).

The report should fulfill the scientific standards required by JIBS. The report should contain the following:

- I) Introduction that presents the company and motivates the research question related to a company challenge or need.
- 2) A fact check of previous and relevant research (based on the literature requirements)
- 3) A findings/results section where students make suggestions on how to tackle the company challenge or need.
- 4) Conclusions and recommendations for practice.
- 5) If applicable: Appendix

The teaching is conducted in English.

Prerequisites

Bachelor's degree (i.e the equivalent of 180 ECTS credits at an accredited university) with at least 30 credits in Business Administration and 30 credits in one (or a combination) of the following areas: Business Administration, Economics, Industrial Engineering and Management, Business Analytics, Informatics, Information Technology, Communication, Commerce (or the equivalent). Proof of English proficiency is required.

Examination and grades

The course is graded Fail (U) or Pass (G).

ILO 1-5 are examined in the final individual internship report ILO 4-7 are examined through four individual reflection reports

Registration of examination:

Name of the Test	Value	Grading
Assignment ^I	15 credits	U/G

^I Determines the final grade of the course, which is issued only when all course units have been passed.

Course evaluation

It is the responsibility of the examiner to ensure that each course is evaluated. At the outset of the course, the programme evaluators in the course must be contacted. In the middle of the course, the examiner should meet the programme evaluators to identify strengths/weaknesses in the first half of the course.

At the end of the course, the examiner should remind students to fill in the survey. The examiner should also call a meeting with the programme evaluators to debrief the course, based on course evaluation data and comments. The next time the course runs, students should be informed of any measures taken to improve the course based on the previous course evaluations.

At the end of each study period, JIBS' Director of Quality and Accreditation crafts a "Course Evaluation Quarter Report", presenting the quantitative results from course evaluation surveys. The Associate Dean of Education, The Associate Deans of Faculty, Programme Directors, and JSA President and Quality receive the report.

Other information

The credits from this course can only be used as elective credits and cannot be included in the major.

Academic integrity

JIBS students are expected to maintain a strong academic integrity. This implies to behave within the boundaries of academic rules and expectations relating to all types of teaching and examination.

Copying someone else's work is a particularly serious offence and can lead to disciplinary action. When you copy someone else's work, you are plagiarising. You must not copy sections of work (such as paragraphs, diagrams, tables and words) from any other person, including another student or any other author. Cutting and pasting is a clear example of plagiarism. There is a workshop and online resources to assist you in not plagiarising called the Interactive Anti-Plagiarism Guide.

Other forms of breaking academic integrity include (but are not limited to) adding your name to a project you did not work on (or allowing someone to add their name), cheating on an examination, helping other students to cheat and submitting other students work as your own, and using non-allowed electronic equipment during an examination. All of these make you liable to disciplinary action.

Course literature

Preliminary literature should be suggested by the student and discussed with the internship teacher before writing the report. The literature applied should be relevant for the internship focus and include at least ten (10) academic references (see business report). This minimum

requirement refers to literature beyond the literature students have studied in previous JIBS courses. Literature from previous courses can be used.
