Examensbenämning

Filosofie magisterexamen med huvudområdet företagsekonomi

Degree of Master of Science (60 credits) with a major in Business Administration

Programbeskrivning

Programme aims

The International Marketing Programme aims to increase a student's ability to understand and meet the international marketing needs of current and future organizations. Contemporary challenges in marketing - such as digitalization, globalization and the rapid rate of change - compels an international setting and makes renewal a central theme. The programme emphasizes connections with practice through course activities with corporate interaction combined with the theoretical depth to be expected of a Master of Science Programme.

Mål

General aims

Second cycle education shall essentially build on the knowledge students acquire in first cycle education or corresponding knowledge. Second cycle education shall involve a deepening of knowledge, skills and abilities relative to first cycle education and, in addition to what applies to first cycle education, shall further develop the students' ability to independently integrate and use knowledge, develop the students' ability to deal with complex phenomena, issues and situations, and develop the students' potential for professional activities that demand considerable independence or for research and development work.

Innehåll

The master's programme International Marketing (One Year) provides a deepening education in the field of business administration for those already holding a bachelor degree and having a substantial amount of business administration education in their undergraduate studies. This programme increases a student's ability to understand and meet the international marketing needs of current and future organizations. Contemporary challenges in marketing - such as digitalization, globalization and the rapid rate of change - compels an international setting and makes renewal a central theme. The programme emphasizes connections with practice through course activities with corporate interaction combined with the theoretical depth to be expected of a Master of Science Programme.

The International Marketing programme provides advanced training in dealing with the topic of how to make a product stand out in the market and covers issues on what influences and

inspires consumers. The programme is structured to prepare students for managing change and development related to marketing. To this end, it deals with various parts of marketing research and to communicate offerings to internationally diverse target groups, through traditional advertising as well as more recent avenues in digital and social media.

The programme consists of seven mandatory courses held over two semesters, as described in the table below. The curriculum has been designed to prepare the student for work in international environments, specifically within the area of marketing. The first semester has a broader and more foundational approach to marketing. The program starts with courses in *Consumer Behaviour* and *Contemporary Issues in International Marketing*, familiarizing students with current issues and trends in the lives and practices of consumers and professional marketing managers respectively. The semester continues with courses in *Marketing Research and Marketing Communications in a Digital World*. The second and final semester of the program focuses more specifically on the international dimensions in marketing. Courses in *Applied International Marketing* and *Globalization of Economic Activity* prepare students for marketing work in a globalized market place and in multinational corporations. During the second semester, students write a 15 credit thesis in parallel to their coursework. The thesis in business administration should cover a topic of international marketing.

All courses are taught in English. Thanks to the international profile of Jönköping International Business School students on the programme will interact with peers from all over the world. The international atmosphere is reinforced by the programme's international subject matter, in particular its consideration of marketing that crosses borders.

Undervisning och examination

To pass a course, the student needs to fulfill all the course requirements. Examination will be executed by written exam, oral exam or term papers. Different methods of examination can be used within a single course. The student will be offered examination opportunities in accordance

with document: Regulations and Guidelines for first, second and third cycle education at Jönköping University. Mandatory workshops and assignments can figure within the frame of the course.

All courses offered by JIBS will be graded according to the following six levels: A-E constitutes a pass and FX or F is equal to a fail. The grades Pass or Fail can also be used for selected examinations.

Förkunskapskrav

The applicant must hold the minimum of a Bachelor's degree (i.e. the equivalent of 180 ECTS credits at an accredited university) with at least 90 ECTS credits in business administration, economics, commerce, industrial engineering and management, or equivalent. At least 60 ECTS credits must be in business administration. Proof of English proficiency is required.

Villkor för fortsatta studier

This programme runs for only one year, and therefore has no continuation requirements.

Examenskrav

To obtain the Master of Science (60 Credits) with a major in Business Administration, the student must complete the course requirements of at least 60 credits at the higher education level that were not used for the bachelor degree, with at least 45 credits overall in second-cycle courses and at least 30 of those second-cycle credits in business administration, and furthermore the course Master Thesis in Business Administration (15 credits) must be completed.

To obtain the Master of Science (60 credits) with a major in Business Administration, with a focus on International Marketing, the student must complete: (1) the requirements for the Master of Science (60 credits) with a major in Business administration, (2) all mandatory programme courses as listed in the above contents section, or their equivalent, and (3) a Master thesis in Business Administration (15 credits) that covers a topic with relevance for International Marketing.

Kvalitetsutveckling

Our cooperation with JSA, the student organization, is crucial. This work is conducted on two levels, programmes and courses.

Programme level

On the programme level students elect student programme evaluators to represent the student group. The student representatives and the programme directors meet regularly to discuss courses and the progress of the programme. The representatives stay in contact with course coordinators to share the overall impression and student experiences from courses; in addition, the Programme Director leads quality assurance work together with a programme group (faculty) and an advisory board (corporate representatives).

Course level

On the course level, student evaluators and course coordinators meet shortly after the course has started. The purpose is to ensure that the course is working well and if necessary make minor changes. After each course is finished all students perform course evaluations on Ping-Pong, and programme developers evaluate the course on the aggregate level and communicate with programme director and course responsible.

Övrigt

Additional information, regarding the programme, will be presented on JIBS homepage before each application period.
